

"COOL CONGREGATIONS"

CARBON FOOTPRINT CHECKLIST

1) UTILITY INFO totals for the last 12 months

Electricity (kWh) _____

Heat (You only use one of the following in your home)

Natural Gas _____

(Total "therms" of gas. If your bill uses units of "mcf," multiply by 10.3 to get therms; if "ccf," multiply by 1.03)

Heating Oil (in gallons) _____

Propane (in gallons) _____

Didn't save your last 12 months of bills? Call your local utility and ask how to retrieve the information. Here is one example:

"Duke Energy - find your account number on your latest bill and go to <http://www.duke-energy.com/Ohio.asp>, establish a user name and password, enter your account number and print off your last 12 months total."

2) MILES DRIVEN* and MPG - Estimate for each car for the last 12 months. (15,000 miles is average number of miles driven.)

Car #1 Make, model, year _____

Miles driven _____

MPG (miles per gallon) _____

(Don't know? Go to www.fueleconomy.gov. In the lower left-hand corner of the page select "MPG estimate from Users," then select your make and model and write down the EPA combined average.)

Current odometer reading _____

(for a more accurate measure for next year's calculations)

Car #2 Make, model, year _____

Miles driven _____

MPG _____

Current odometer reading _____

Car #3 Make, model, year _____

Miles driven _____

MPG _____

Current odometer reading _____

Car #4 Make, model, year _____

Miles driven _____

MPG _____

Current odometer reading _____

3) FLIGHT MILES *

Estimate of the miles flown by *each* member of your family for the last 12 months. Don't know? Go to www.webflyer.com/travel/milemarker/
Select cities flown to and from to get miles traveled. Count each flight for each family member separately, even if they flew on the same flight.

Total for all family members: _____

4) GARBAGE produced each week measured in gallons. (Kitchen bags are 13 gallons, large bags are 33 gallons.) _____
